

# Wonder Imagine Make (WIM)

**Time allocation:** Equivalent to 1 hr hour per week -

**Rationale:** Libraries in the 21<sup>st</sup> Century are evolving as places to wonder, imagine and make. With this in mind the library has been moved into a room and has learning spaces set up to foster wonderings, imagining and making.

**Purpose:** To develop and inspire students to imagine, wonder and make. This is also to provide connectivity.

## **Guidelines for implementation:**

1. Each class has a one hour session each week.
2. The centre is open from 8:30am before school and during each lunchtime from 1:50 until 2:15pm.
3. Students are encouraged and expected to borrow and return books.
4. Activities are available for students on a rotational basis and in some instances, interest basis.
5. Leveraging Technology and connecting to books where possible.
6. Activities provided to facilitate collaboration between students are in the rotations.
7. Making activities, which can be art or technology inspired, are included.
8. Coding activities involving Beebots, Probots, Makey Makeys and Little Bits are available.
9. Research strategies and methods along with eSmart safety are taught in lessons.

## **Resources:**

Books  
Computers  
Art supplies  
Beebots  
Probots  
Cardboard  
Lego  
WeDo Lego  
Little Bits circuits  
Circuits equipment – LED's, batteries etc  
Internet access
